TOPPY SIDE MOVER

TECHNICAL FEATURES

TOPPY SIDE MOVER

Pallet size	Up to 1000x1200 mm opened or bottom
Capacity	Up to 1200 kg
Side press control	Indipendent
No.2 side plates	800 x 1300 mm
Drive battery	Acid lead battery
Traction	Electric
Performance	About 30 pallets / hour
Pallet transfer	Side shifting

Toppy Side Mover is a side-camping machine that allows to change the pallet by a side shifting movement of the load. This pallet changer allows a gentle pallet replacement without turning or tilting the load. Thanks to this system and to our new solutions, the products cannot be damaged by excessive pressure. The two lateral side plates support the product to safely perform its translation and exchange the pallet. Topy Side Mover is the most versatile systems to change the pallet, because it doesn't require a given area for this job.

*stationary version

TOPPY PH ADVANCE & MAXI TOPPY PH ADVANCE

TECHNICAL FEATURES	TOPPY PH & MAXI TOPPY PH ADV.
Pallet size	Up to 1200 x 1200 mm opened pallet

TOPPY BRAND CORRESPONDS TO PALLET CHANGER

From three generations **Topy** is identified as the pallet changer, all over the world.

Established in Bologna in 1978 **Topy S.r.l.** began as a producer of machines and trucks for the graphic industry. Since then, whenever a good application was found, other machines were added to the **Topy** ranges, significantly in the industrial field such as pharmaceutical, food, cosmetic and others.

Constant growth in technology and output has enabled **Topy** to consolidate its position amongst the European leaders in materials handling sector. The **Topy** range has been continuously extended and upgraded to satisfy the market and the users' varied needs. **Topy** can supply pallet turning and pallet changing machines, both mobile and stationary, also pallet trucks, reel lifting machines. Recently **Topy** is being preeminent also in logistic system application specially designed by **Topy**.

Topy becomes essential everywhere the load to handle is placed on a pallet.
