TOPPY WEB 300

TECHNICAL FEATURES	TOPPY WEB 300
Capacity	300 kg
Clamp rotation	hydraulic
Clamps diameter	Ø 350-1120 mm
Max. lifting height	1600 mm
Turning	180°
Open, close & lateral rotation	hydraulic
Traction	manual
Internal distance between legs	about 285 mm
* available also in wide base version	

Toppy Web 300 allows to lift and turn paper reels up to a maximum weight of 300 Kg. The clamps are able to take each reel single paper reels from piles arranged on a pallet, move it and turn it so that the operator can easily introduce it in the rotary press or rest it on the floor. Topyy Web 300 Reel Turner has been designed to reduce significantly the work of operators, enhance safety and protect the paper because it is equipped with rubber-coated jaws. Roll Turner Topyy web are ideally suited for print, food & pharma industries environments.

TOPPY WEB 600

TECHNICAL FEATURES	TOPPY WEB 600
Capacity	600 kg
Clamp rotation	hydraulic
Clamps diameter	Ø 650-1270 mm
Max. lifting height	1600 mm
Turning	180°
Open, close & lateral rotation	hydraulic
Traction	electric
Internal distance between legs	about 1350 mm

Toppo Web 600 enables to take single paper reels from piles arranged on a pallet, move and turn them so that the operator can easily place them back into the rotary press. The reel can be also put on pallet, waiting to be placed into the printing machine. Our range of reel turner is the market leader worldwide. Toppo Aspo and Toppo Web are battery propelled Reel Turner truck, specifically designed to handle reels of different material, from the core with a spindle or from the external diameter by two clamps

TOPPY WEB 1000

TECHNICAL FEATURES	TOPPY WEB 1000
Capacity	1000 kg
Clamps diameter	700-1270 mm
Clamp rotation	hydraulic
Max. lifting height	1600 mm
Turning	180°
Open & close + lateral rotation	hydraulic
Traction	electric
Internal distance between legs	about 1600 mm

Toppy Web 1000 is a mobile reel turner with electric traction, able to turn by 90° reels of paper with a maximum weight of 1000kg. Topy reel turners enable to take single paper reel from piles arranged on a pallet, move and turn them so that the operator can easily place them back into the rotary press. The reel can be also put on pallet, waiting to be placed into the printing machine. Constant growth in technology and output has enabled Topy to consolidate its position amongst the European leaders in materials handling sector. Since the demand of reel turner has increased over the years, Topy decided to invest in research and development of new technologies in order to fulfill the most of customers' needs.

TOPPY CRADLE

TECHNICAL FEATURES

Capacity	1000 / 1250 / 1500 kg
Lifting system	through guides
Reel max diameter	1000 / 1200 mm
Cradle width	800 / 1200 mm
Cradle holder	equipped with hydraulic tailgate
Traction	electric

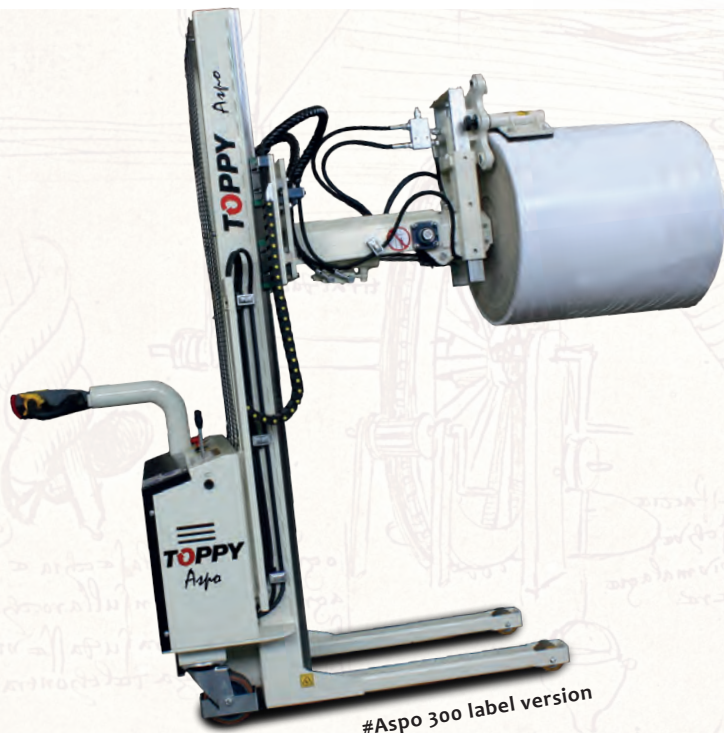

We design and manufacture according to client requirements, from heavy-duty reeling machine to high-speed coiling machines, our technology and design expertise focus on productive machine-personalization by taking factors like weight, reel size capacities, reel widths, height and customer requirement into account. Machines are engineered and tested at each stage of production to assure international quality in terms of efficiency, safety, performance, and durability. Best service and customer support is assured throughout the journey with us. Our top-notch engineering design and customization capability is the perfect answer to your reeling needs

TOPPY ASPO 300

TECHNICAL FEATURES	TOPPY ASPO 300
Capacity	300 kg
Spindle expansion	range from 69-81 mm
Side shifter for spindle centering	manual
Lifting	hydraulic
Turning	180°
Rotation	hydraulic
Traction	electric
Internal distance between legs	about 335 mm
	*available also in wide base version

Toppy Aspo 300, a reel truck fitted with electric lift, an expanding mandrel to grip the reel in the core, side shifter and electric traction control. Outside clamp to prevent the reel material from telescoping, is available upon request. Topy began as a producer of machines and trucks for the graphic industry. Since then, whenever a good application was found, other machines were added to the Topy range, significantly in the pharmaceutical, food, cosmetic and ceramic fields. Roll Turner Topy aspo are ideally suited for print, food & pharma industries environments

TOPPY ASPO 150

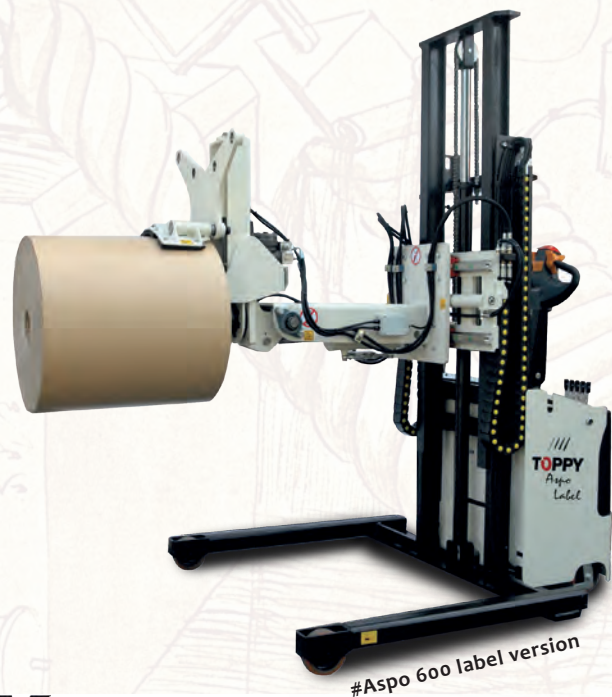

TECHNICAL FEATURES	TOPPY ASPO 150
Capacity	150 kg
Lifting	hydraulic
Turning	180°
Rotation	hydraulic
Traction	manual
Internal distance between legs	about 480 mm

Toppy Aspo 150 roll turner is a minilifter with manual traction and electric lifting. It can handle and rotate by 90° reels of different materials, up to 150 Kg of weight, through a spindle with manual drive.

TOPPY ASPO 600

TECHNICAL FEATURES	TOPPY ASPO 600
Capacity	600 kg
Spindle expansion	range from 69-81 mm
Side shifter for spindle centering	electric
Lifting	hydraulic
Turning	180°
Rotation	hydraulic
Traction	electric
Internal distance between legs	about 1350 mm

Toppo Aspo 600 is a mobile reel turner, battery operated truck specifically designed to handle reels of different materials and weigh up to 600kg. It is available with either manual or electric traction. Toppo Aspo 600 can take a reel placed vertically on pallet, turn it and place it horizontally onto the floor, and vice versa. The reel is taken from its core by a spindle that expands for a safe and strong grip. Toppo Aspo Label 600 roll turner has been conceived to avoid the cone effect when lifting the reel thanks to a hydraulic clamp which tightens the circumference of the reel, becoming one with it.

BRAND CORRESPONDS TO REEL TURNER

From three generations **Toppo** is identified as the reel turner best producer, all over the world.

Established in Bologna in 1978 **Toppo S.r.l.** began as a producer of machines and trucks for the graphic industry. Since then, whenever a good application was found, other machines were added to the **Toppo** ranges, significantly in the industrial field such as pharmaceutical, food, cosmetic and others.

Constant growth in technology and output has enabled **Toppo** to consolidate its position amongst the European leaders in materials handling sector. The **Toppo** range has been continuously extended and upgraded to satisfy the market and the users' varied needs. **Toppo** can supply pallet turning and pallet changing machines, both mobile and stationary, also pallet trucks, reel lifting machines. Recently **Toppo** is being preeminent also in logistic system application specially designed by **Toppo**.

Toppo becomes essential everywhere the load to handle is placed on a pallet.
